### Water Quality Combined Funding Program (WQC)

Ecology's Water Quality Program awards grants and loans on a competitive basis for high priority water quality projects throughout Washington State. Ecology administers the four main funding programs that make up the Water Quality Combined Funding Program (Combined Funding Program) through an integrated annual funding cycle. The Combined Funding Program includes the following four funding programs:

- The Centennial Clean Water Program (Centennial).
- The Clean Water Act Section 319 Nonpoint Source Grant Program (Section 319).
- The Washington State Water Pollution Control Revolving Fund Program; a.k.a., Clean Water State Revolving Fund (CWSRF).
- Stormwater Financial Assistance Program (SFAP).

## Terry Husseman Account (THA)

THA grants support locally sponsored projects that restore or enhance the natural environment. Typical projects address:

- Water quality issues.
- Fish and wildlife protection or enhancement in or adjacent to waters of the state, such as streams, lakes, wetlands, or the ocean.

To be considered, projects must provide primary benefits to public resources (land or water stewardship) and affiliated infrastructure.
